## About Me

---

After finishing my degree, I was not sure what direction to head. At first, I thought of going into Data Analysis, but, when one of my courses I was taking to get into the field included a section on Python for Machine Learning, I instantly knew I had to be a developer. Since beginning, I have taken many courses and built many solo projects. I have focused on Python and Flask for the backend, and Bootstrap, HTML, CSS, and JavaScript for the frontend.

## Technologies and Languages

---

- **Programming Languages:** Python, JavaScript, HTML, CSS
- **Frameworks:** Django, Flask, Bootstrap
- **Tools:** SQL, Selenium, BeautifulSoup, Git, Github

## Education

---

- **Google Data Analytics Prof. Cert.,** Google **Oct 2021**
- **B.Sc. Economics,** Towson University, Towson, MD **June 2019**

## Projects

---

- [Machine Learning Chatbot \(Live Site\)](#) **(Flask):** The bot is trained on the scripts from three games. It will respond conversationally as the character. The site uses Flask with Python for the backend.
- [Will it Rain Today?](#) **(API):** Used open weather and Twilio APIs to check the weather for a given location, and send you a text if it is going to rain that day
- [Amazon Price Tracker](#) **(API):** Used BeautifulSoup and SMTP APIs to get the price of a product on Amazon and send an email to a given account if the price drops to a specified amount
- [Cookie Clicker Bot](#) **(Automation):** Used Selenium with Python to create a bot that automatically plays cookie clicker. Showcases the use of logic to purchase the best available upgrades and play as efficiently as possible
- [Sentiment Predictor](#) **(Machine Learning):** Cleaned raw text review data for machine learning, split data into test and training sets, and built Random Forest Classifier which evaluated to 74% accuracy

## Work Experience

---

<b>Driver</b> <i>Glen Burnie, MD</i> <ul style="list-style-type: none"><li>• Delivered great customer satisfaction with a 5-star rating and zero complaints over my tenure</li></ul>	<b>DoorDash</b>	<b>Dec 2020 - Present</b>
<b>Streamer</b> <i>Glen Burnie, MD</i> <ul style="list-style-type: none"><li>• Grew a community from zero to 150 followers by increasing awareness through social media and networking</li><li>• Used viewer data to plan future relevant content</li></ul>	<b>Twitch</b>	<b>Aug 2019 – Dec 2020</b>
<b>Shift Supervisor</b> <i>Annapolis, MD</i> <ul style="list-style-type: none"><li>• Supervised five employees while addressing concerns and reaching daily goals responsibility</li><li>• Developed training material to more efficiently onboard new hires</li></ul>	<b>Banner Hallmark</b>	<b>May 2015 – Dec 2016</b>
