#### ABOUT ME

After finishing my degree, I was not sure what direction to head. At first, I thought of going into Data Analysis, but, when one of my courses I was taking to get into the field included a section on Python for Machine Learning, I instantly fell in love with coding. Since beginning, I have taken many courses and built many solo projects. I have focused on Python and Flask for the backend, and Bootstrap, HTML, CSS, and JavaScript for the frontend.

## **EDUCATION**

Google - Google Data Analytics Professional Certificate

Oct. 2021

Towson University - Bachelor's of Science, Economics, GPA: 3.0

June 2019

Anne Arundel Community College - Associate's of Arts, Economics

Jan. 2016

#### **SKILLS**

Programming Languages/Frameworks: Python, Flask, JavaScript, HTML/CSS

Tools: MySQL, Selenium, Bootstrap, BeautifulSoup, GitHub

# **PROJECTS**

API - Will it Rain Today?

GitHub Link

• Used open weather and Twilio APIs to check the weather for a given location, and send you a text if it is going to rain that day

API - Amazon Price Tracker

GitHub Link

Used BeautifulSoup and SMTP APIs to get the price of a product on Amazon and send an email to a given account
if the price drops to a specified amount

Automation - Cookie Clicker Bot

GitHub Link

- Used Selenium with Python to create a bot that automatically plays cookie clicker
- Showcases the use of logic to purchase the best available upgrades and play as efficiently as possible

Machine Learning - Sentiment Predictor Using Machine Learning on Hotel Review Data

Kaggle Notebook

• Cleaned raw text review data for machine learning, split data into test and training sets, and built Random Forest Classifier which evaluated to 74% accuracy

## **WORK EXPERIENCE**

DoorDash Dec. 2020 – Present

Driver Glen Burnie, MD

Delivered great customer satisfaction with a 5-star rating and zero complaints over my tenure

Twitch Aug. 2019 – Dec. 2020

Streamer

Glen Burnie, MD
